### ST BARBARA BECOMES SHEET HARBOUR MARINA'S LEAD CORPORATE SPONSOR

St Barbara and the Sheet Harbour Marina Association (SHMA) are proud to announce that we have entered into a multi-year partnership agreement to become the Lead Corporate Sponsor of the Sheet Harbour Marina Project. The agreement provides the Association with a consistent level of funding for three years to ensure the project moves forward with stable financial support and with hopes of leveraging those dollars to obtain additional funds to progress the construction and development of the Marina site.

"St Barbara has been a proud part of the Sheet Harbour community for a number of years. Our company believes in supporting Sheet Harbour's current goals and also wants to invest in the community's future. While we have signed partnership agreements with local groups like the Gerald Hardy Society and the Sheet Harbour and Area Chamber of Commerce, we believe this partnership with SHMA shows community members that we want to support the future of Sheet Harbour and support it in continuing to be a wonderful location to live, work and play." Andrew Strelein, Managing Director and CEO, St Barbara

# CASTING OFF

Have you ever tied up to a tree on an island and gone for a walk? Then, when you return, your boat is high and dry because the tide has gone out while you are walking around now; you need to wait for the tide to return, which could be at night.

By following this simple diagram, you'll be able to tie up safely and then pull your boat in safely when you return without damaging it or needing to wait for the tide to come back, which could be after dark.

Remember, safe boating is a priority and a responsibility for all boaters, including those at the Sheet Harbor Marina.

## DISCOVER HALIFAX SUPPORT
